

## HOME DISTILLER GETS \$100 FINE

Mike Phillips Pleads Guilty  
—Still Proves to be  
Unique Contraption.

Changing his plea of not guilty to charges of manufacturing intoxicating liquor to one of guilty, Mike Phillips, arrested by the police Oct. 24, following a raid upon his home in the outskirts of the city on the Portage rd., in which a gallon of "moonshine" whisky and dishpan still was found, was fined \$100 and costs by Judge George W. Omaha in city court Wednesday.

Phillips' case was continued from Nov. 5 until Wednesday. Through his counsel, Atty. G. A. Parabaugh, Phillips pleaded for clemency, declaring he had not made a sale of the liquor and that the contraption, one made by himself, was only in the nature of an experiment.

The whisky-making contrivance found in the Phillips home, which the defendant admitted using to make whisky, was one of the most unique which ever fell into the possession of the police. The still consisted of an overturned washtub, with a coil made from an old piece of one-inch water pipe. According to the police, the quality of the whisky made by Phillips from the home-made still was excellent, considering the method of manufacture.

### Hold South Bend Man

**For Mishawaka Mixup**  
Gordon Hegedorn, 491 City Hall st., arrested on a warrant sworn out in Mishawaka, and wanted in that city on charges of assault and battery, was Thursday morning turned over to the Mishawaka police.

Hegedorn, it is said, questioned two or three officers Wednesday if they had a warrant to serve on him. He stated to them that a fist-fight between him and the complainant, resulting in the latter getting the worst of the argument, had been the basis of statements made to his friends that his arrest was impending.

Finally Detective Hansen, armed with the expected warrant, came upon Hegedorn, who, not caring to hear the paper read to him, it is said, accompanied the officer voluntarily to the station.

## FIFTEEN YEARS OF STOMACH MISERY AT LAST RELIEVED

Draco, the great herbal remedy is reported to have given this lady astonishing results. Free samples given.

A representative from the Draco Laboratory is located at Central Drug Store to meet the public and explain merits of Draco.

"About 15 years ago I had a very severe attack of diphtheria and had to take anti-toxin in such large quantities that it upset my stomach completely and I haven't been well since," said Mrs. H. J. Stanley, who lives on R. R. No. 2, New Carlisle, Ind.

"I couldn't digest anything I ate, the food just laid there and fermented, forming gas and kept me bloated. My bowels were always constipated so that I had to take strong medicines to get them to act and of course, this helped to disturb my stomach. I was very bilious, my head felt like it was swimming around, a hot bitter liquid came up in my throat almost strangling me at times, my kidneys were weak and ached terribly."

"I've only taken one bottle of Draco so far and it has made a wonderful change in me, my stomach is rapidly improving so that I can enjoy what I eat. I have gotten rid of all the bile, my back and kidneys are strong once more and I feel so much better in every way. My nerves are soothed so that I sleep well every night, getting up in the morning brim full of energy and feeling physically fit. My husband and I both think it is wonderful the way Draco has taken hold of this old case of stomach trouble and made me well."

The well known Draco Expert, has headquarters at Central Drug Store, to meet the local public and explain the merits of this great remedy. Call today.—Advt.
